

# The Hydro Pot

*The Perfect Wick Watering System*

**These elegant and classy WICK pots are also very functional and answer the needs of Strep and Violet growers.**

1. Basket is full of air vents so roots can breathe and so that you can easily leach out salts quickly.
2. Basket is flat on the bottom. If you feel you might have over watered you can sit the basket in open air to dry the root ball.
3. Water capacity on the three larger sizes is twice that of the popular Oyama Pots. Fill once a week.
4. Matte white pot is semi-translucent so you can see light through it to tell your water level.
5. Black basket is glossy for ease of cleaning and has a wide lip to help hold leaves outward. Tiny ridges under lip aid in air flow inside pot.
6. Each pot comes with it's own wick so your ready to plant and enjoy.

**Available in FOUR Sizes**

Size	Height	Top Width	Basket Opening	Price
S	3.5"	3.5"	2.25"	\$3
M	4.85"	4.25"	3"	\$5
L	5.5"	5"	4"	\$6
XL	6"	6"	4.75"	\$7
